Last Updated: 1/11/22

### **Federally Qualified Health Centers**

Federally Qualified Health Center locations.

Data Source Organization: US Department of Homeland Security, Homeland Infrastructure Foundation-Level Data (HIFLD)

Data Source Link: Unavailable

Last Updated: Unavailable

### **Hospices**

Hospice locations

Data Source Organization: US Department of Homeland Security, Homeland Infrastructure Foundation-Level Data (HIFLD)

Data Source Link: Unavailable

Last Updated: Unavailable

### **Hospitals**

This feature class/shapefile contains locations of Hospitals for 50 US states, Washington D.C., and US territories.

Data Source Organization: Oak Ridge National Laboratory.

Data Source Link: <https://hifld-geoplatform.opendata.arcgis.com/datasets/geoplatform::hospitals-1/about>  
Last Updated: 12/8/20

### **Nursing Homes**

The Nursing Home / Assisted Care feature class/shapefile contains facilities that house elderly adults.

Data Source Organization: US Department of Homeland Security, Homeland Infrastructure Foundation-Level Data (HIFLD)

Data Source Link: <https://hifld-geoplatform.opendata.arcgis.com/datasets/geoplatform::nursing-homes/about>  
Last Updated: 7/7/20

### **Pharmacies**

Pharmacies in the United States and Territories.

Data Source Organization: TechniGraphics, Inc.

Data Source Link: <https://hifld-geoplatform.opendata.arcgis.com/datasets/geoplatform::pharmacies-archive/about>  
Last Updated: 4/30/18

### **Public Health Departments**

This dataset represents the locations of public health departments. A local health department may be locally governed, part of a region or district, be an office or an administrative unit of the state health department, or a hybrid of these.

Data Source Organization: TechniGraphics, Inc.

Data Source Link: <https://hifld-geoplatform.opendata.arcgis.com/datasets/geoplatform::public-health-departments/about>  
Last Updated: 12/30/19

### **Urgent Care Facilities**

This dataset represents the locations of urgent care facilities. The Urgent Care dataset consists of any location that is capable of providing emergency medical care and must provide emergency medical treatment beyond what can normally be provided by an EMS unit, must be able to perform surgery, or must be able to provide recuperative care beyond what is normally provided by a doctor's office. In times of emergency, the facility must be able to accept patients from the general population or patients from a significant subset of the general population (e.g., children).

Data Source Organization: TechniGraphics, Inc.
